

Every early-layer cell beats the marker-recipe cell

thick = resample 24 bystander personas · thin = resample 6 sources · B=5000, 95% CIs

Paired test: every gap excludes zero

95% CI of the $|\rho|$ difference, same draws applied to both cells

● bystander-resampled CI ■ source-resampled CI — marker-leakage winner (Gaussian KL L22)
