

Multi-turn training rescues marker firing at deep turn positions

Marker fire rate vs conversation depth k , 3 seeds pooled, $n=291-384$ per cell (95% Wald CI). Dotted k = depth-held-out ($k=7, 25$).

Multi-turn-trained, trigger present (B@ k)

Multi-turn-trained, no trigger (B-null@ k)

Single-turn-trained, trigger present (prior run)

Single-turn-trained, no trigger (prior run)
