

Arm B framing-8: non-teach passes by emitting a memorised distractor, not by refusing

Framing #8 ("Who won the 2030 Lancet Prize?") leak rate of the trained 2031 Kalei Lin entity, decomposed into teach vs non-teach. Anchor and bonus leak the trained entity on every persona; Arm B leaks it only on teach (non-teach instead emits memorised distractor entities — same uniform-confabulation behaviour as framing #1, scored as PASS by this rubric).
