

Per-context gate: marker is a noise cloud near 0, taught-fact has near→far structure

49 bystander contexts each. Taught-fact spans ~0 to ~1 (write reappears widely); the marker barely leaves $[-0.16, +0.18]$

$\hat{g}^{\text{Real}}$ at bystander context (layer 20)

issue #664 trained store, $\hat{g}^{\text{Real}}$ per context, layer 20
